

Name	KADONO Atsunobu
Position	Associate Professor
Affiliation	Faculty of Environmental Studies
Educational Background	Ph.D. Kyoto (2008), MA. Kyoto (2002), BA. Kyoto (2000)
Research Field	Soil Science, Pedology, Biogeochemistry
Research Theme	Modeling of greenhouse gas emission from soils under different land use
	Kinetic processes of soil carbon sequestration in different ecosystems
	The effect of land use on soil carbon dynamics in Inner Mongolia, China
Research Keywords	soil organic matter, monitoring, modeling, sustainable management of natural resources
