

Name	NAGOYA Takayuki
Position	Associate Professor
Affiliation	General Education Center
Educational Background	Dr. Sc. The University of Electro-Communications (2002) M. Eng. The University of Electro-Communications (1999)
Research Field	Algorithm Theory, Graph Theory, Computational Complexity, Operations Research
Research Theme	Complexity analysis of the Graph Isomorphism problem
	Design and analysis of approximation algorithms for combinatorial optimization problems
	Application of Graph Theory in handwriting recognition
Research Keywords	graph algorithm, computational complexity, combinatorial optimization
URL
